Code Coverage and Branch Coverage Report

1. Purpose and method

This report combines the code (statement) coverage and the branch coverage of the project's own source files, measured while the full automated test suite ran. Tool: coverage.py 7.17.2, branch measurement enabled. Only application code is measured: test files and migrations are not part of the measured set.

2. Overall result

Measure	Covered	Total	Percent
Statement (code) coverage	1475	1585	93.1%
Branch coverage	229	268	85.4%
Combined (coverage.py total)	1704	1853	92.0%

3. Code (statement) coverage by file

File	Statements	Missed	Covered
accounts/admin.py	99	13	**86.9%**
accounts/api_urls.py	3	0	**100.0%**
accounts/apps.py	7	0	**100.0%**
accounts/audit.py	5	0	**100.0%**
accounts/authentication.py	39	4	**89.7%**
accounts/management/commands/cleanup_audit_logs.py	10	0	**100.0%**
accounts/management/commands/make_seller.py	27	2	**92.6%**
accounts/models.py	36	4	**88.9%**
accounts/permissions.py	13	0	**100.0%**
accounts/rbac_views.py	8	0	**100.0%**
accounts/registration.py	93	9	**90.3%**
accounts/roles.py	8	0	**100.0%**
accounts/signals.py	6	1	**83.3%**
accounts/token_views.py	31	0	**100.0%**
accounts/urls.py	5	0	**100.0%**
accounts/views.py	50	0	**100.0%**
bookstore/__init__.py	2	0	**100.0%**
bookstore/celery.py	6	0	**100.0%**
bookstore/exceptions.py	26	1	**96.2%**
bookstore/logging_filters.py	14	0	**100.0%**
bookstore/settings.py	53	6	**88.7%**
bookstore/urls.py	3	0	**100.0%**
cart/admin.py	10	0	**100.0%**
cart/apps.py	3	0	**100.0%**
cart/models.py	18	2	**88.9%**
cart/urls.py	3	0	**100.0%**
cart/views.py	84	3	**96.4%**
catalog/admin.py	38	0	**100.0%**
catalog/apps.py	3	0	**100.0%**
catalog/models.py	18	0	**100.0%**
catalog/serializers.py	23	0	**100.0%**
catalog/urls.py	3	0	**100.0%**
catalog/views.py	67	0	**100.0%**
notifications/admin.py	1	0	**100.0%**
notifications/apps.py	3	0	**100.0%**

File	Statements	Missed	Covered
notifications/models.py	1	0	100.0%
notifications/sms.py	40	0	100.0%
notifications/tasks.py	46	8	82.6%
orders/admin.py	124	35	71.8%
orders/apps.py	3	0	100.0%
orders/fulfilment.py	22	1	95.5%
orders/models.py	42	3	92.9%
orders/urls.py	3	0	100.0%
orders/views.py	114	9	92.1%
reviews/admin.py	39	0	100.0%
reviews/apps.py	3	0	100.0%
reviews/models.py	16	0	100.0%
reviews/moderation.py	67	3	95.5%
reviews/moderation_urls.py	3	0	100.0%
reviews/summary.py	12	0	100.0%
reviews/urls.py	3	0	100.0%
reviews/views.py	107	4	96.3%
storefront/address_api.py	17	0	100.0%
storefront/admin.py	1	0	100.0%
storefront/apps.py	3	0	100.0%
storefront/models.py	1	0	100.0%
storefront/urls.py	5	0	100.0%
storefront/views.py	35	0	100.0%
wishlist/admin.py	1	0	100.0%
wishlist/apps.py	3	0	100.0%
wishlist/models.py	12	1	91.7%
wishlist/urls.py	3	0	100.0%
wishlist/views.py	41	1	97.6%

4. Branch coverage by file

A branch is one outcome of a decision point (for example the true and false side of an if). A partial branch is a decision that was exercised in only one direction.

File	Branches	Covered	Partial	Branch %
accounts/admin.py	10	9	1	90.0%
accounts/audit.py	2	2	0	100.0%
accounts/authentication.py	10	7	3	70.0%
accounts/management/commands/make_seller.py	4	4	0	100.0%
accounts/registration.py	14	12	2	85.7%
accounts/roles.py	2	2	0	100.0%
accounts/signals.py	4	3	1	75.0%
accounts/token_views.py	8	8	0	100.0%
accounts/views.py	16	16	0	100.0%
bookstore/exceptions.py	8	7	1	87.5%
bookstore/logging_filters.py	4	4	0	100.0%
bookstore/settings.py	6	3	3	50.0%
cart/views.py	22	19	3	86.4%
catalog/admin.py	6	5	1	83.3%
catalog/views.py	18	18	0	100.0%
notifications/sms.py	8	8	0	100.0%
notifications/tasks.py	4	3	1	75.0%

File	Branches	Covered	Partial	Branch %
orders/admin.py	22	13	1	59.1%
orders/fulfilment.py	4	3	1	75.0%
orders/views.py	32	27	5	84.4%
reviews/admin.py	6	4	2	66.7%
reviews/moderation.py	18	17	1	94.4%
reviews/views.py	32	28	4	87.5%
wishlist/views.py	8	7	1	87.5%

5. Files with the lowest statement coverage

File	Covered	Statements missed
orders/admin.py	71.8%	35
notifications/tasks.py	82.6%	8
accounts/signals.py	83.3%	1
accounts/admin.py	86.9%	13
bookstore/settings.py	88.7%	6
accounts/models.py	88.9%	4
cart/models.py	88.9%	2
accounts/authentication.py	89.7%	4

6. Notes

Figures are taken directly from the coverage.py JSON produced by the project's full Django test run (branch measurement on). Statement coverage counts executable lines only. The combined figure is coverage.py's own total, which weights statements and branches together.
